

Household Hazardous Wastes?

Many products you use in your home and yard contain hazardous materials. Improper disposal of these products can cause fires, injuries to people and animals, and groundwater contamination. This guide will help you identify hazardous products in your home. **Keep your home safe by disposing of hazardous products properly.**

Key: ▲ Take to a hazardous waste collection site / ■ Place in trash / ● Pour down drain (*NOT if connected to a SEPTIC system)

**SEPTIC SYSTEMS may be adversely affected by large quantities of these materials. Items should be taken to a hazardous waste collection site.*

Garage and Workshop			
Acetone	▲		
Adhesive, solvent-based	▲		
Antifreeze	▲		
Artist's paints and media	▲		
Autobody repair products	▲		
Battery acid	▲		
Brake fluid	▲

Weed killer (herbicide)	▲		

Think Before You Buy!

- Switch to safer substitutes. For a brochure on alternatives to hazardous products, call the WLSSD Hotline.
- Read the label. Make sure the product will do what you want before purchasing. Follow label directions for safe use, storage and disposal.
- Purchase only the amount you need and use up what you buy.
- Avoid aerosols by choosing pump sprays.
- Select water-based over solvent-based products when available.
- Before buying paint, check out the Product Exchange at WLSSD. It's free!

Clear Answers for Clean Water™

Proper Disposal

- Give leftover products to someone who will use them for their intended purpose.
- Never pour oil, antifreeze or other hazardous materials on the ground, into storm sewers or down the drain.
- Destroy medicines (add water, salt, etc), seal with tape and conceal before placing in trash.
- Car batteries can be returned to stores that sell them. Stores must accept batteries back for recycling.
- TVs, computers, and other electronic waste must be recycled.

YEAR-ROUND HOURS

Thursday	9 am to 5 pm
Friday	9 am to 5 pm
Saturday	9 am to 5 pm
Sun thru Wed	CLOSED
