

MRC: The smart, easy place for waste disposal.

Simple tips to make your trip to the MRC easy

Sorting saves time and money

You'll pay less when you sort out items like clean sheetrock, concrete and clean wood for recovery, rather than dumping them as unsorted Mixed Waste (See price list inside).

You'll save time, too, when you pack your vehicle with unloading in mind. For instance, pack tires and appliances on the bottom or at the front of your load, because you'll unload these items last. You can pack mixed waste, electronics and brush on the top or near the back of your load, because you'll dump these items first (See the map inside for details).

How much is a cubic yard?

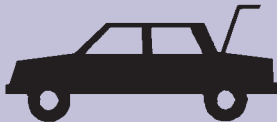

Average full size pickup bed holds approximately 2 cubic yards.*

Average trailer bed holds approximately 2 cubic yards.*

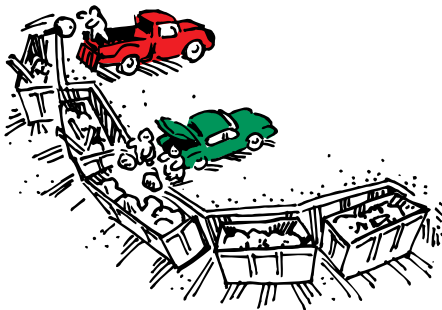

Average compact/small pickup bed holds approximately 1 to 1 1/2 cubic yards.*

Average automobile trunk holds approximately 1/2 cubic yard.*

*Based on level loads – not heaping. All loads subject to measurement.

OPERATING HOURS

Summer (April – October)

Mon, Tues, Wed, Thurs10 am to 5 pm
 Fri, Sat8 am to 4 pm
 SunClosed

Winter (November – March)

Tues thru Sat9 am to 3 pm
 Sun, MonClosed

For holiday hours
 or questions, call the
WLSSD Hotline 722-0761
 Or visit our Web site
www.wlssd.com

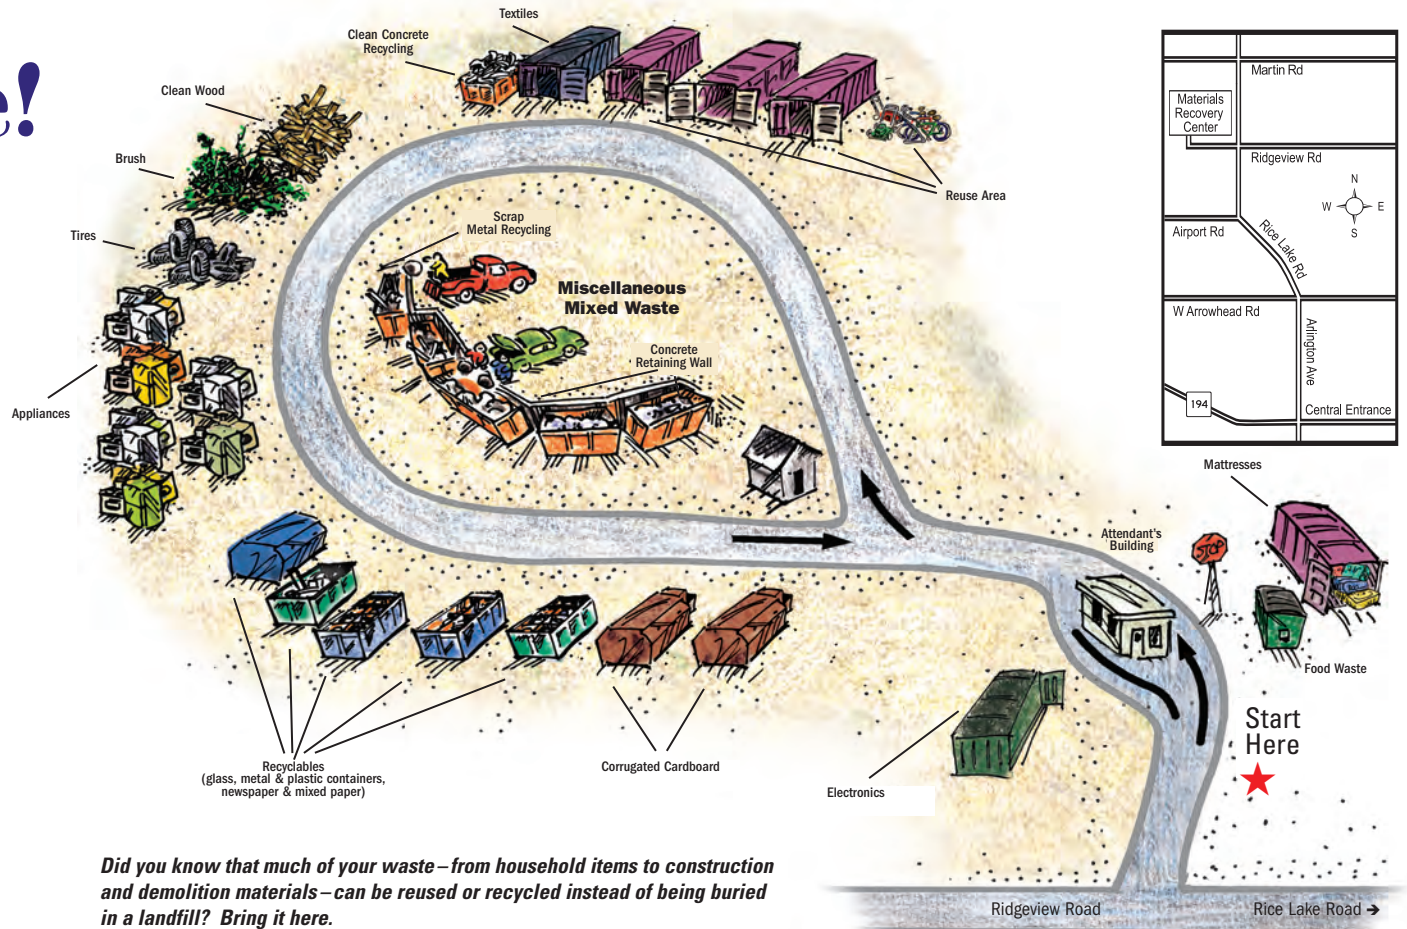

What do I do with this stuff?

Bring it here!

The **Materials Recovery Center (MRC)**, at the corner of Rice Lake and Ridgeview Roads, is the place to bring your "stuff" for recycling, reuse and disposal. It's easy. And, you can save money by helping to recover resources from waste rather than throwing them in the trash!

Simply drive around the loop and drop your materials in the areas specially marked for recycling, reuse and disposal. We accept some materials for free, and we charge less for other recoverable materials when they are sorted out for recycling.

Did you know that much of your waste—from household items to construction and demolition materials—can be reused or recycled instead of being buried in a landfill? Bring it here.

What can you drop off at the Materials Recovery Center?

Recoverable Material\$10 / cubic yard

- Clean wood (no green treated, laminate, plywood, chipboard, paint or stains)
- Clean concrete (no rebar or embedded materials)
- Textiles, yard equipment, bikes

Miscellaneous Mixed Waste\$22 / cubic yard

- Mixed construction and demolition loads (i.e. concrete, brick, wood, plastic, shingles)
- Large household items (i.e. broken furniture, old carpeting)

Brush\$8 / cubic yard
